

Blagdon, Clevedon & District Branch

Spring Study Groups 2010

The Branch is running a Study Group on Honey Bee Management (Module 1) to be held at Shipham Village Hall, Shipham at 8pm. All on alternate Tuesdays. The start date is 19 January 2010. The objective will be to work together to learn about honey bee management. Some people will be preparing for the BBKA Module 1 Examination in March 2010. The groups are open to any member whether you intend to take the exam or not. These groups will be more structured than our study groups in previous years and there will be homework! It is clear that the more we understand about honey bees the more enjoyable beekeeping becomes. In the future we might need to 'help ourselves' more and not rely on bee inspectors and their knowledge. If beekeeping and more importantly honey bees, are to survive, it is up to us to look after them as well as we can....and that means we need to learn more about them.

Please email/telephone Ivor Davis if you'd like to come. Ivor will email everyone involved in 2nd week of January with more details.
